

WORK EXPERIENCE

Tech Lead (Founding Team) | EASTRI

Apr 2025 - Present

- Independently built and maintain the entire backend infrastructure (Node.js, PostgreSQL, Redis, WebSockets, RabbitMQ).
- Lead a 30-member cross-functional team spanning UI/UX, graphic design, frontend (React), backend, and Flutter app development.
- Develop and ship the Eastri consumer and partner app in Flutter; contribute to React-based web modules.
- Define the backend roadmap, ensure high delivery velocity, and enforce engineering best practices.
- Collaborate with design, product, and operations to align tech execution with user experience and business goals.

Frontend Engineer | Intern | ODISOFT TECHNOLOGIES

Apr 2025 – May 2025

- Built the entire frontend architecture for the website **Importkey** from scratch using React, TypeScript, Tailwind CSS, and Vite for a SaaS platform designed to simplify data imports and API integrations.
- Collaborated closely with backend and design stakeholders to turn product requirements into interactive and production-ready features.
- Managed version control and CI workflows via GitHub, ensuring smooth feature delivery and iterative UI improvements.

Full Stack Engineer | Intern | ASTRAEUS NEXT GEN

Feb 2025-Apr 2025

- Developed responsive and interactive frontend interfaces using **React** and **Tailwind CSS**, focusing on user experience and performance.
- Built dynamic **data visualization dashboards** using **Recharts** (bar charts, pie charts, line graphs) to display business metrics and user insights.
- Implemented **RESTful backend APIs** using **Node.js** and **Express**, supporting core application features and data interactions.

PROJECTS

Loopdesk |Team and Project Management Website | [LINK](#)

- Comprehensive **Project & Task Management** – Enables multi-workspace management with Kanban, Table, and Calendar views for tracking tasks with statuses and due dates
- Team Collaboration & Role-Based Access** – Supports multiple members with Admin and Member roles for seamless teamwork.
- Kanban Board with Drag & Drop** – Provides an interactive Kanban board for seamless task organization and status updates.

SKILLS SUMMARY

Languages:

Frameworks & Libraries:

Messaging & Queues:

Database & ORM:

Other Tools:

JavaScript (ES6+), TypeScript, Go , SQL, Dart  
Express.js, Hono, React.js, Flutter, Next.js, TanStack Query, Riverpod  
RabbitMQ (RPC, pub/sub, DLQ), Redis Streams  
PostgreSQL, Prisma ORM, MongoDB, Redis, WebSockets  
Docker, Clerk Auth, Axios, Recharts, TanStack Table

EDUCATION

Sikkim Manipal Institute of Technology, Majhitar, Sikkim

August, 2026

Bachelor of Technology (Computer Science and Technology) CGPA: 8.25(Till 5<sup>th</sup> Sem)

NPS International School, Guwahati, Assam

Class X: 93.4%

Class XII: 91.8%

2019

2021
